DETAILED ACTION

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because of informal handwritten text and shading that may affect clarity once reproduced. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 11/21/2003 was considered by the Examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by

Digitoe.

Referring to claim 1. Digitoe discloses a method of custom-manufacturing an article of footwear comprising, in combination, the following steps:

- Providing a customer with a choice of different articles of footwear to be custom-manufactured (Digitoe: Page 9, “Can more than one style of shoe be made on the same show last?”);
- Providing the customer with an option to select a first size for one of a left and right article of footwear (Digitoe: Page 9, “What if my feet are 2 different sizes and I wear prescription orthotics?”); and
- Providing the customer an option to select a second size for the other of the left and right article of footwear (Digitoe: Page 9, “What if my feet are 2 different sizes and I wear prescription orthotics?”).

Referring to claim 2. Digitoe further discloses a method including the step of providing the customer with a choice of colors for selected portions of the footwear (Digitoe: Page 11, “Choose your favorite colors...”).

Referring to claim 3. DigiToe further discloses a method of custom-manufacturing footwear, comprising:

- Providing a customer with a choice of different types of footwear to be custom-manufactured (DigiToe: Page 11, "Shoe Collection for Men");
- Registering a selection by the customer of one of the types of footwear for custom manufacturing (DigiToe: Page 13);
- Obtaining specifications from the customer for custom-manufacturing the selected piece of footwear including a first size for one of a left and right article of footwear and a second size for the other of the left and right article of footwear (DigiToe: Page 9, "What if my feet are 2 different sizes and I wear prescription orthotics?"); and
- Custom manufacturing the selected piece of footwear according to the customer's specifications (DigiToe: Page 13).

Referring to claim 4. DigiToe further discloses a method including the step of providing the customer with a choice of colors for selected portions of the footwear (DigiToe: Page 11, "Choose your favorite colors...").
